SUMMARY

Passionate Software Engineer with 3 years of experience designing and delivering scalable web applications. Strong foundation in Python and Java with hands-on expertise in REST APIs, Docker, and Agile delivery methodologies.

TECHNICAL SKILLS

Python, Java, JavaScript, REST API, SQL, PostgreSQL, Docker, Git, Data Structures, Algorithms, Agile, Problem Solving

WORK EXPERIENCE

Software Engineer

Infosys Ltd. | 2022 – 2024

- Developed microservices in Python/FastAPI serving 500K daily requests.
- Reduced API latency by 35% through query optimisation and Redis caching.
- Led migration of legacy monolith to Docker-containerised services.

Junior Developer

TechStart Pvt. Ltd. | 2021 – 2022

- Built REST APIs in Java Spring Boot for e-commerce checkout flows.
- Wrote SQL queries and stored procedures for PostgreSQL databases.

EDUCATION

B.Tech, Computer Science – IIT Bombay, 2021

PROJECTS

- CodeCollab – Real-time collaborative code editor (WebSockets + React)
- OpenBudget – Personal finance tracker with Python Flask backend

CERTIFICATIONS

- AWS Certified Developer – Associate (2023)
