SUMMARY

Data Scientist with 4 years of experience in machine learning, statistical analysis, and data visualisation. Proficient in Python, Scikit-learn, TensorFlow, and SQL. Published researcher with focus on NLP and predictive modelling.

TECHNICAL SKILLS

Python, Machine Learning, Pandas, NumPy, Scikit-learn, SQL, Statistical Analysis, Data Visualization, TensorFlow, PyTorch, Deep Learning, NLP, Tableau, A/B Testing

WORK EXPERIENCE

Data Scientist

Flipkart Internet Pvt. Ltd. | 2021 – 2024

- Built recommendation engine (collaborative filtering) boosting CTR by 18%.
- Developed churn prediction model with 92% AUC using XGBoost.
- Designed A/B testing framework to evaluate pricing experiments.

Data Analyst

Mu Sigma Inc. | 2020 – 2021

- Automated weekly reporting pipeline in Python, saving 8 hours/week.
- Created Tableau dashboards for C-suite business intelligence.

EDUCATION

M.Sc. Statistics – Delhi University, 2020

PROJECTS

- SentimentScope – Twitter sentiment classifier using BERT
- PricePulse – ML-based dynamic pricing model for retail

CERTIFICATIONS

- Google Professional Data Engineer
- Coursera Deep Learning Specialisation
